

WHAT IS THE MOST CHALLENGING FOR YOU?

The only DCIM solution that truly adds value to your data centre

- Cooling & Energy Management
- Asset & Connectivity Management
- Performance & Capacity Management

All in one

Capacity

Capex/Opex

Fail-over

Invoicing

Performance

A GOOD DCIM-SOLUTION HAS A ROI OF LESS THEN 1 YEAR

PERFORMANCE MANAGEMENT

DCIM gives you inside information for all Data centre metrics like: EER, PUE, iPUE, CUE, WUE and the tooling to use these metrics for optimizing your daily operation.

GENERATING FAULTLESS AND ACCURATE INVOICES

Did you know that the average collocating data centre loses 5% of their monthly turnover due to missing checks and balances?

Measuring the power consumption based on the kWh value on the first and the last of the month is one thing. Making sure this information is correct, including power measurement changes, contract changes, measurement breakdown is an other. DCIM adds value by including checks and balances.

REDUCING CAPEX AND OPEX BY KNOWING ACTUAL CAPACITY AND FUTURE CAPACITY DEMANDS!

Did you know that the average collocating data centre can reduce CAPEX by 50% when building its Data centre? Can you imagine what it does for your OPEX.

Combining all information within your data centre gives you all the tools you need to decide when to invest (or not) in new equipment without any risk of an outage.

WORST FAIL-OVER SCENARIO

Did you know that the cost of downtime has increased 38 percent since 2010. Do not become a victim of not knowing your risks.

The main reason of an outage is due to a human error. Calculating your redundancy and failover is one thing. But including checks and balances to warn you of any human error is what makes it unique.

ALL-IN-ONE DCIM

Advantages of an all-in-one DCIM:

- Turnover increase with 5-10%
- Average power consumption reduction 25%
- ROI between 3 weeks and 6 month

Combining all information into one DCIM solution brings the real value under your finger tips.

OUR DCIM PARTNERS

OEM PARTNER

Conteg, spol. s r.o.
E: conteg@conteg.com
delivering AEGIS in 51 Countries
